

# DEATH ENDS CAREER OF JAKE HAMON

## NORMAL ELEVEN TRIUMPHS OVER O. B. U. HUSKIES

Preachers Defeated 17 to 14 In Fast Football Game Here Yesterday.

The Normal football team covered itself and Coach Clary with glory when yesterday they defeated the Oklahoma Baptist University of Shawnee, 17 to 14 in the best and most interesting game played on the local grounds this season. The game was hard fought from start to finish and was played clean. There was a large crowd present and at no time during the game did it lack in interest and enthusiasm. It was a good day to play and the local boys took advantage of the chance to add another scalp to their belt. Looking back over the record of the team this year and the record of the team last year a great difference can be found. Coach Clary deserves great praise for his ability and untiring efforts in training his men to bring Ada to the front, and the record speaks well for them.

The visitors started the game by kicking off. The Ada boys received the ball in good shape and by a series of line plunges and end runs were able to get the ball on the twenty yard line. A field goal was kicked from there. The first score of three for Ada before the visitors had touched the ball. The Ada boys' luck seemed to change after this first speedy play and the visitors were allowed to make two touchdowns, one of which was a pass made by Ada and caught by a Shawnee boy who had a clear field before him. At the end of the first quarter the score stood 3 to 14 in favor of the Shawnee team.

The locals entered the second quarter with a rush and by hard line plunges and long passes were able to score. The remainder of the second quarter was played with little advantage to either side and when the whistle blew the ball was near the center of the field. In the first half several men were hurt but all were able to re-enter the game except Frisco Vernon, who was substituted for by Frank East, who also received a serious scalp wound and was forced to quit the game later on. The visitors were not unfortunate in this respect as none of their men were disabled.

The second half of the game was harder fought than the first. Many good plays and long gains by passes and end runs were the main features of this half. Brents received a broken nose but would not leave the field. Conn Roach hit the line for a twenty-five yard gain and crossed the goal line. The locals kicked goal making the score 17 to 14 in their favor. The third quarter ended with the game in Ada's favor.

The last quarter of the game witnessed many good plays for both sides. The visitors would carry the ball near the goal only to be stopped by a fierce resistance from the locals. The ball was carried from one side of the field to the other with a man knocked out almost every play to delay the progress.

The game in full was the fastest, cleanest, most man-like of any game played here this year.

## BOLSHEVIKI TO MAKE LOVE TO U. S. NEGROES

(By the Associated Press)

WASHINGTON, Nov. 26.—Union of the American negro with the radical element of all nations to further the cause of world soviet was urged before the Moscow meeting of the communist international, at which both Lenin and Trotsky spoke, by the late American radical and magazine writer, John Reed, according to the text of his speech, received here in official dispatches from Russia.

## Does it Cost More to Live in Ada? Returned Citizen Shows That it Does Not

During a conversation with a prominent Ada man a few days ago someone said caustically that Ada is a very expensive town to live in.

"Do you really think so?" he asked quickly.

"My wife and I have been away for four weeks," he continued, "and we are glad to get back, for we reached the conclusion while we were gone that Ada was the most economical town to live in on the map."

"I remember one place particularly in the north where if you rode a block in a taxi they would nick you a dollar and everything else was high."

"My wife had just bought a gown before we left home, and a friend of hers who was with us liked it so much that she wanted one like it. My wife had paid \$39.50 for it in Ada and they supposed of course they could get something of the same sort for about that price. Imagine

their surprise, when having found a gown of practically the same material and similarly made, the saleswoman informed them that it was only \$125! I don't mind telling you they did not make the purchase."

"The weather having turned cold, this same friend found herself in need of a heavier coat, but when she and my wife shopped for one they found the prices so exorbitant that my wife, who had been forehanded enough to take both a winter coat and a fur cape loaned the cape to her friend, saying 'We will do them out of that much anyway.'

"We did not leave any more of our money in that town than was absolutely necessary for food and shelter. We decided to bring it back home with us and spend it where we can get something for it."

"If you travel around a bit, you will decide with me that things are cheaper and better right here in Ada than any other place on the map."

## HAMON'S CAREER IS A STORY OF OIL AND THE RAILROADS

ARDMORE, Okla., Nov. 26.—The career of Jake L. Hamon is a story of oil and railroad, for one of his hobbies was building railroads.

In 1898, he was graduated from the law department of the University of Kansas at Lawrence and at once came to the Indian Territory to seek his fortune. His first job was as a clerk in a store at New Kirk, Oklahoma.

When the Kiowa-Comanche country was opened to settlement, Hamon went with the first rush of new settlers to Lawton, becoming the city's first city attorney. He was later chairman of the republican territorial committee, and for many years continued active in the leadership of the party in Oklahoma.

One of the first big ventures of Mr. Hamon was the building of two railroads, one from Lawton to Ardmore and the other from Wichita Falls to Oklahoma City, after futile years of trying to get his paper roads bonded he concluded to start the job himself.

Backed by John Ringling of New York, circus man, he built 31 miles of railroad from Ardmore to Ringling, Oklahoma. Later he became owner of the Hamon-Tell railroad in Texas.

Mr. Hamon made his first venture in the oil game when the leadon field came into prominence as a prospective producer. When the first oil well was brought in Hamon went to that territory to "look things over." He waited and watched them bring in one well after another, then realizing that the fellows who were bringing them in were generally at their ropes end for ready cash. So he began to buy productions and bought it at a low figure, and then by selling it high he amassed a fortune of five million dollars within three years.

## Educators Open Annual Meeting at Local Normal

The first general session of the fifth annual meeting of the East Central Oklahoma Education association opened at 9 o'clock this morning at the Normal auditorium with a good representation of the teacher members present. The only deviation from the advertised program was the non-appearance of Senator Luther Harrison, who was scheduled to deliver the address of welcome from the city of Ada but could not be present on account of sickness.

The program started with the audience singing "America the Beautiful" under the direction of Professor Bolin of Okmulgee, and after a short but spirited community song service, Rev. C. V. Dunn, pastor of the Ada Christian church, delivered the invocation.

## HARDING WANTS MORE SOLDIERS AT CANAL ZONE

President-Elect Dines with President of Panama Republic.

CURZON, Canal Zone, Nov. 26.—Senator Harding devoted today, the last day of his short visit at the Pacific terminal of the Panama canal to recreation for the most part, and also had several more talks with canal zone officials. The president-elect arose early for a game of golf and later took a motor boat ride. Late this afternoon he will leave by train for Cristobal, where on Sunday he will go on board his ship to return to the United States, sailing for Norfolk. His return to Cristobal will complete a three day visit there, in which sight seeing was combined with a practical study of problems which will confront him after he becomes chief executive of the United States.

Not the least of these problems are the relations the new administration will maintain with the republic of Panama, with the president of which he exchanged assurances of good will at the banquet given in his honor by President Porras last night. The question of a proper military force for the canal zone also has engaged his attention and he will be particularly interested in plans for the war department to increase that force to a full division. Senator Harding today had luncheon with Brigadier General Kennedy, commander of troops in the canal zone, and had a long talk with that officer.

## MAN IS CRUSHED UNDER TRACTOR

Workman Receives Broken Thigh While at Work Wednesday.

His right thigh crushed, and suffering from internal injuries, Jim Phillips, farm hand of the Allen farm five mile southwest of Ada, is struggling between life and death as a result of being run over by a heavy farm tractor Wednesday evening.

Phillips had crawled under the engine to fasten a chain from a haybailer preparatory to moving it. While backing the tractor up to the haybailer the driver killed the engine and forgetting to throw it out of gear left it wide open and got out to crank it while Mr. Phillips was fastening the chain. When he turned the crank the engine started and the result was that the man was crushed before he knew what was happening.

A doctor was called immediately and the wounds were administered to. The report on the man's condition was rather favorable as he was resting easier and the doctors who are attending him believe he will recover.

Mr. Phillips had moved his family here from Tennessee but a short time before the accident. He has a wife and several children.

## STEEL PRICES DROP BACK TO OLD LEVEL

(By the Associated Press)

PITTSBURG, Pa., Nov. 26.—Return of steel prices to the base established by the United States industrial board March 21, 1919, developed here today when the Jones & Laughlin Steel company, the largest of the independent interests, adopted new selling rates on certain finished steel products.

This reduction, the first to be made by independents in the Pittsburgh district, will not affect the wages, it was understood, of approximately twenty-five thousand persons in the company's employ.

Ever Notice?

"We are all supposed to be born free and equal."

"Yes, and that theory comes home to you forcibly when you encounter the snobs around a summer hotel."

## He Was True To His Friends

It is a pleasure to one who has known Jake Hamon for ten years to say at his bier that the man from Ardmore exemplified the best religion that this old earth has ever known. He was true to his friends. The days might be bright days or the nights intensely dark ones, but it was all one to Jake Hamon—his friends could do no wrong.

Friends may now engage in meaningless eulogy and enemies may sneer behind their hands, but as it was in life it remains in death; impervious to reproach while living Hamon can be no more indifferent to reproach while dead. He was a hard-hitting, upstanding fighter who took his punishment like a man and never asked for mercy from those he opposed. And through it all his thoughts were of those who fought with him and for him, and it was for these he did his greatest work.

This is a dark scene, this closing scene of Hamon's life, and slander and scandal stood hardby while his soul was passing. Many bitter things will be said and much of a damaging nature will be suspected. But Jake Hamon is now beyond the reach of either praise or censure. In the meantime he occupies a large place in the hearts and memories of those he befriended and these will never let his memory entirely die.

## Elks Have Great Time in Initiating Big Class

Wednesday, November 24, came and passed, and old Pap Time marked off another day along his endless course. Great was the wonderment of all in Ada when the dawn of Thursday stole upon this side of the earth and it was found that a class of 120 candidates who became full fledged Elks Wednesday night were still alive. Antlers were annexed on the whole bunch after a fashion peculiar unto the Elks alone, and it was a great day for Ada as well as for Ada Lodge B. P. O. E.

The fun started promptly at one o'clock Wednesday afternoon. Every Elk in the city was sworn in as an Elk policeman. F. A. Ford's service car was commandeered and turned into an emergency hoodlum patrol wagon. The candidates were rounded up to be prepared for the slaughter. Every cell in the city jail was filled. Some were chained to posts in the heart of the city and made to peddle such necessities as safety pins, underwear, socks, crepe de chine and popcorn. The popcorn vendors were at a disadvantage, it seems, because of the unsanitary appearance of their stuff.

Then came the big parade, starting from the Elks home on Main street and winding around the block. The candidates marched single file, led by a collection of camels, monkeys and other animals borrowed from Honest Bill's circus, which is wintering in Ada. Some of the candidates were made to ride the camels, and one victim was placed in the cage with the monkeys.

Work of initiating the new Bills started right after the parade, and lasted until midnight.

The Elks are among the most active workers for better citizenship. A splendid Elks club in a city may be taken to mean a splendid city, for it reflects the spirit of the people who make up the city. The Elks lodge is one of the social centers of a community, where men gather in an unselfish fraternity and plan for the happiness of their fellow-men.

## She Has No Home, No Country

A 12-Year-Old Refugee at Ellis Island

NEW YORK.—Without a country, as a result of an order by immigration authorities refusing her admittance to the United States, Evodokia Gorekina, 12 year old Russian refugee, has been held at Ellis Island awaiting the next of life's buffets.

When Bolshevik troops threatened Tomsk, where Evodokia lived with aristocratic parents, she fled with American Red Cross workers to Vladivostok and, with seven hundred other refugee children, traveled aboard the steamship Yonei Maru nearly around the world.

The arrival of the Red Cross refugee ship at a Finnish port, where the children and their parents were to be reunited, found Tomsk still Bolshevik hands, and Evodokia was unable to find her parents. So she was taken in charge by the Red Cross workers, and brought back to the United States. A special board of inquiry refused to admit the child because she was unaccompanied by either parent and likely to become a public charge.

## HAMMON DIES FROM EFFECT OF BULLET WOUND

Carter County Authorities Redouble Efforts to Find 'Woman in the Case.'

ARDMORE, Nov. 26.—With the death early today of Jake L. Hamon, republican national committeeman from Oklahoma, Carter county authorities were redoubling their effort to locate Clara Smith, of Ringling, Oklahoma, charged with assault with intent to kill in connection with the shooting of Mr. Hamon in a local hospital last Sunday night. Mr. Hamon died at 8:15 this morning.

A statement issued last night by Mr. Hamon's physician stated his condition was "not so favorable." The bulletin said Mr. Hamon had "slept a great deal Thursday, and that it was possible his unfavorable condition was because of this." The statement also said that Mr. Hamon had taken food yesterday, the first nourishment other than liquids that he had taken. At the time according to the statement, no complications had developed but the absence of continued improvement led to the unfavorable report. Mr. Hamon became suddenly worse early this morning.

Continue Search for Woman.

Continuing H. Brown, county attorney, today reiterated his belief that the Smith woman had not left the county, but is in a nearby town. The warrant for her arrest was placed in the hands of the sheriff of Carter county last Tuesday.

It was at first reported that Miss Smith had left for California last Monday afternoon, and trunks said by the authorities at Kansas City, Mo., to be hers were located in the Union station in that city a few nights later. Despite this information, however, the county attorney declared he had reports which he considered to be authentic and of sufficient authority to warrant his belief that she was still in lower Oklahoma.

Following the death of Mr. Hamon this morning, Mr. Ketch issued the following statement:

"Jake Hamon died at 8:20 o'clock this morning from the effects of a gun shot wound accidentally inflicted. Funeral services will be held in Ardmore Monday afternoon at two o'clock and burial will be made here by request of Mrs. Hamon. T. J. Erwin, Lawton, former pastor of Hamon's at Lawton, and Dr. C. C. Weith, pastor of the First Presbyterian church here, will conduct the funeral services."

## Preliminary Hearing Opens for Driver of the Fatal Car

Preliminary hearing of the manslaughter charge against Clarence E. (Shorty) Rowlett was begun before Justice of the Peace H. J. Brown in court here this morning. Seven persons who witnessed the auto wreck on the morning of October 17 which resulted in the death of Miss Gertrude Carlton, 19-year-old stenographer, were examined this morning. These were Bob and Gaines Sawyer and Mrs. Bob Sawyer, and Walter and Lee Comstock, all of whom saw the car driven by Rowlett when it smashed into the other car at the foot of the hill just beyond the swimming pool south of Ada; and Maude Ross and Lillie Elam, the two other girls who were in the car together with Miss Carlton, Rowlett, Luther Correll and another boy.

The hearing was continued at noon to be resumed tomorrow morning at 9 o'clock.

From the trend of the evidence being introduced, it appears that Rowlett is going to have a hard fight on his hands to extricate himself from the toils of the law for his alleged reckless driving.

Mails between the United States and Canada are handled as freight.

# GO TO THEATRE

Nazimova in Latest Picture.

Those who like Nazimova best as the gorgeous woman of the world, the celebrity had ample opportunity for pleasure last evening at the Liberty theatre in witnessing "Madame Peacock," the Russian star's latest Metro picture, adapted from Rita Weiman's story. And those who find especial delight in Nazimova as the appealing youngster, the doughty poor little girl were likewise satisfied—rather more than that in fact.

For in "Madame Peacock" Nazimova has the first dual role chosen since the great Chinese spectacle, "The Red Lantern." Rita Weiman has drawn two distinct characters in Jan Goring and Gloria Cromwell, both taken by the star. The skilful direction of Ray C. Smallwood and no less capable photographic work by Rudolph Bergquist, projected against Edward Shulter's stunning art settings all contributed to supplement fittingly the greatest achievement on the screen.

At the McSwain, Seldom has such marvelous fidelity to detail been shown in any production as Erich von Stroheim displays in his latest feature, "The Devil's Pass Key," now on view at the McSwain theatre. The Parisian atmosphere with its streets, shops and famous landmarks, the races, gardens, theater and all reproduced so untracingly that one almost doubts the statement that the picture was made in America. Also Mysterious Smith and Mme. Olga change their program completely. All of the magician tricks will be entirely new and different. If their's anything you're in doubt about, ask Mme. Olga. Ask her about lost articles, stolen property, missing relatives, love affairs. If in trouble don't fail to consult this wonderful woman. She has helped thousands and will do the same for you.

## Church News

Thanksgiving Service. A profitable hour was spent in worship in the Nazarene church on Thanksgiving morning, also in a Thanksgiving prayer meeting in the evening.

The pastor, Rev. Tom Taylor, preached a splendid sermon on Thanksgiving to God at the morning service. The 107th Psalm was the basis of the theme.

In the conclusion of the service, an old time John Wesley testimony meeting was given.

Many expressed their thanks to God for his many blessings during the past year.

A spirit of love prevailed through the two services and those present were made to exclaim "Behold, how good and how pleasant it is for brethren to dwell together in unity."

## NEGROES AND WHITES HOLD RACE CONFERENCE

OKLAHOMA CITY, Nov. 23.—The state conference on inter-racial relations, postponed from September 16, will open at the state house tomorrow. County judges throughout the state have appointed five white men and five negroes from each county as delegates to the convention and practically all were expected to be present.

The conference, called by Governor Robertson for September 16, was postponed because R. H. King and B. C. Alexander of Atlanta, Ga., who were to address the conference then, were unable to attend. Upon notification by these two officers of the national committee on inter-racial relations that they could be here on November 23, the conference was again called. Delegates appointed to the conference include T. B. Ferguson of Watonga, former territorial governor and Prof. Jerome Dowd, head of the sociology department of the University of Oklahoma.

## A Prominent Banker Has Just Said:

"When a man comes to us to borrow money, we want to know how much life insurance he carries, not so much because of its bearing upon his financial power, but as an indication of his type of mind; for the type of mind that induces a man to insure his life is the type of mind that makes for success in business."

"We note particularly the amount of business insurance he carries, because that tells his attitude toward his creditors."

"His business rating with this bank goes up with his insurance, and it goes down if he lapses his policy or fails to pay his premiums promptly. We care mightily what provision a borrower makes to care for his obligations to this bank if he shall die with them unpaid."

I have business insurance to fit the largest or smallest corporation partnership or individual doing business in Pontotoc county.

## Normal Second Team Loses Game To Maud Eleven

The Maud high school football team defeated the Normal second team, 17 to 13, Wednesday in the second game of the two teams have played this year and the last game of the season. The Normal boys played hard but were unable to pile up enough scores to win. The game was close and hard fought. F. L. Casteel, coach of the good team is to be congratulated on the team he has made of his boys and the team work speak well for the team. Both teams were about equally matched and played hard.

The result of the game was in doubt until the beginning of the last quarter when the Maud boys crossed the line for their last touchdown.

**More Eggs or Money Back!**

The Purina System of Feeding keeps the flock laying in the fall and the winter, because it supplies plenty of material for whites as well as for yolks. This enables the hen to make complete eggs of all the yolks that develop in her body.

When a grain ration is fed there is not enough protein for whites. Many yolks that form are not laid, but are eventually absorbed back into the system as fat.

## More-Eggs Guarantee

Purina Chows, when fed according to directions, are guaranteed to make hens lay more eggs than any other feed, or the money paid for Purina Chows will be refunded.

## BLUE Karo

The standard of all table syrups. Also for cooking, baking and candy-making. Light brown color, delicious flavor—a heavy bodied syrup.

## Notice to the Public!

Among the twenty odd million American Homes there is probably not a single one where Karo is not served in some manner—for breakfast, for dinner or for supper.

Over two hundred million cans of the three different kinds of Karo were sold last year.

During these days of high prices, Karo has become another word for economy. Thousands of thoughtful housewives have learned that Karo is not only a delicious spread for pancakes, but answers every purpose where a sweet is needed.

## For Your Protection

So that you will not be deceived by cans containing syrup that look like Karo in color and appearance every housewife is cautioned to look for this mark.

It is found only on original Karo—and guarantees you full weight cans and highest quality.

Serve Karo on sliced bread, toast, pancakes or waffles.

Do as the wise cooks are now

doing: Use Karo to stew dried fruit, prunes; use it for candied sweet potatoes, brown bread, muffins, coffee cake and puddings.

Karo Home-made Candy is the best for children. It is wholesome, easy to make, costs much less than store candy.

Mothers give children Karo and sliced bread because it satisfies Nature's craving for sweets and takes the place of candy.

## RED Karo

The Ideal Syrup for every use—for cooking, baking, candy-making and preserving. Many prefer it as a spread for cakes, biscuits, breads,

## WHY WEEDS GROW IN MICHIGAN

One of the country's well known writers on economics says that the state of Michigan is in a bad way. He says that thousands of farmers have quit the farm and have gone to Detroit and other manufacturing centers. He says that the railroads are unable to haul the steel to the auto factories and the finished autos to other points. He says that cars cannot be secured to haul farm tractors and other farm machinery. He says finally that the farms of Michigan are growing up in weeds.

But what is the quoted writer going to do about it? He can't very well dynamite the auto factories or keep people from buying automobiles or increase the number of freight cars or improve the train service or keep farmers on the farm. He can't even cut all the weeds in the state of Michigan. Viewing the situation from any angle it seems that the distinguished writer is simply up against it.

The ears of the public are already aching from a bombardment of suggestions of what will keep farmers on the farms. Some say good roads will do it, and undoubtedly good roads are needed. Some say better schools will answer the riddle, and better schools are an undisputed necessity. Some say agricultural education will meet present needs and that too is not disputed. But most people who discuss this very important problem overlook a basic economic fact, and that is: men will always go where they can make money and stay where they can make money. When farming can be made to pay handsome profits, men will flock to the farms, and roads and schools and education will come as a matter of course.

How many of us townspeople would stay on a farm if we couldn't make a living there? How many of us would not move to the farm tomorrow if we could make more money there than we can make in town? The answer is easy, and it follows very logically that the way to make the farm more attractive is to make the farm return better profits.

But how can the farm be made to pay more dividends? Frankly, we don't know. But we do know that the people who feed the world should not be poverty stricken. They ought to be the most prosperous and independent class on earth. Some day they will be.

We thoroughly enjoy all post election explanations of how it happened. We also enjoy many of the suggestions as to how the wrecked and shattered party of Jefferson may be rehabilitated and started running on high once more. But we have no stomach for the frantic offers of assistance and supervision from men who sulked in their tents and refused to help when the battle was on and help was needed. We therefore waste no time in reading the unctuous offerings of Mr. Bryan and others of his kind who have never been pleased with anything done by anyone else but themselves and who will not toot a horn unless they can be the whole band wagon. To all such we can only say in the language of Charlie Rodman of Wewoka: "All we want out of you is silence and durned little of that."

To bury the Democratic party now that it is dead might possibly be a waste of energy. Since we first began to study the political score card we have seen the Democratic party killed nine times and victorious six times. It is easy enough to bury the party, but unfortunately for those who participate in the obsequies the party has the disconcerting habit of coming alive at the most unexpected times. As far back in history as 1840, Sergeant S. Prentiss, the brilliant Mississippi Whig, exclaimed: "The Democratic party, thank God, is dead at last."

In Stidham precinct in McIntosh county a local political leader named Hill told the voters on election day that if Harding won, cotton would immediately go to 40 cents. That box showed a vote that was practically unanimous for Harding. But according to the Eufaula papers Mr. Hill has gone to Muskogee on an extended visit and will not be seen in Stidham again for many many moons.

A financial drive is said to be a success when it nets sufficient money to pay the drivers. And that is the principal reason for a lot of them.

The tax rate in the city of Ada for this fiscal year is exactly 50 1-4 mills. In other words, if your property is assessed at a hundred dollars valuation, you will pay in taxes the tidy sum of \$5.25. If you happen to be burdened with a thousand dollars worth of property, your taxes will amount to \$52.50. Of this imposing total the state tax is 2 mills, while the remaining 49 1-4 is spent at home. The oft repeated charge of costly state government is a myth. The real burden of taxation is home burden voted on homefolks by the folks at home.

that goal as two roads: The first road was described as being a broad highway, level and straight where traveling was made easy by the constant work of those who specialized in the work and kept the highway in good condition for those who desire to travel. That was the road through the schools of instruction which have been established to pilot those who would reach the finished goal. The other road was described as a narrow, branching, winding road, hilly.

## Powdered Milk The Solution to Your Milk Problem

Today the housewife must get milk that is dependable in quality and supply at the least possible price.

Klim Powdered Milk solves this problem.

Spell it backwards  
**KLIM**  
POWDERED MILK

Klim is pure, rich milk reduced to powder form without cooking. Nothing is added. Nothing is changed. Nothing is taken out but the water. Replace the water and you have milk again—fresh and sweet.

Klim users face no fears of milk shortage, no delayed deliveries, no undependable quality; they have no worries about souring. For Klim does not sour and it does not freeze in winter.

From the moment you use Klim you will realize its convenience—its quality—its safety—its economy.

Put KLIM on your order list today.

picturesque and undeveloped. This he described as the road which is traveled by those who strive to attain the objective without going to the schools where the subject was taught.

Many practical illustrations were given of instances which had come to the personal observation of the speaker, and the subject was handled in a capable way.

Dr. J. R. Jewell, of the University of Arkansas, was the last speaker on the morning program, and his talk will be long remembered by those who had the good fortune to hear him. "My school and Jimmie's," was his subject and for an hour he held the attention of his audience as he told of the differences in the school work of today and the day when he attended school in the hills of Arkansas. In the old days there was a "little school with little knowledge and training taught little children little things in a little way," while today the policy of the schools seems to be fashioned after the saying of the Master, "I have come that ye might have life and have it more abundantly."

## Business College Loses Second Game To Konawa Team

The Ada Business College lost their second game of basketball to Konawa, 18 to 19, Wednesday afternoon in a hard fought contest. Both teams put forth the best in them and the College had the game won by one point until the last thirty seconds of the game.

The Konawa boys had the advantage of experience and only by clever team work were able to win. The local team is showing up well.

Jimmie is the son of Mr. Jewell and is now in the third grade at the Fayetteville, Ark., high school and the new ways of doing things at school have been made the subject of Mr. Jewell's lecture.

Most of the afternoon will be taken up with committee work at the normal, but this evening at 7:30 Dr. David Snedden, will speak on "Hard" vs. "Soft" Pedagogy, and at 8:45 Dr. Byron W. King will speak.

for its first few games and promises to develop into one of the strongest teams of its class in this part of the state.

Ed Miller, the fast little forward on the Konawa team, was able to toss the ball through the goal only a few seconds before the whistle blew thus winning the game.

The line-up is as follows: Ada—Byrd and Walker, forwards; Stevens, center; Izard and Van Eatch, guards.

Konawa—Ed Miller and Anders, forwards; Miller, center; Cunningham and Bates, guards. Subs., Jones and Gordon. Mr. Eliff accompanied the boys as coach.

## Refrigeration and Meat

In less than an hour after an animal is dispatched in a Swift & Company packing plant, it is hanging up as meat in a room brought by refrigerating machinery to a temperature just above freezing.

From that time until it is in your own ice box—within two to three weeks—it is kept at the same temperature; first in the coolers at our packing plants; next on our refrigerator cars, more than 6,000 of which are constantly moving to market with their perishable cargoes; then in our refrigerator rooms at our branch selling houses; then in your dealer's ice box, and last in your own.

Only for the few minutes while it is being put into the refrigerator cars at our packing plants, or taken out of them at our branch houses, or whisked to your retailer in our trucks, is it exposed to any change of temperature.

Without a skilled use of this system of cooling, made possible by modern science, you could not get fresh meat, prepared under most sanitary conditions, except at greater expense—unless you happened to live so near live stock raising centers that your needs could be supplied from live stock raised near-by.

If the foregoing raises any question in the mind of the reader, we will endeavor to answer it, upon request.

Swift & Company, U. S. A.

**Elks Dance.**  
The Elks of Ada entertained with a Thanksgiving dance at their club on Main street last night, complimentary to the big class of new Elks who joined the realm of Elksdom the night before. Music was furnished by a real jazz band, and each selection was encored so many times it was impossible for the dancers to finish out dances on their program.

Visitors were in attendance from neighboring towns, and the big dance hall was crowded with merry-makers and dancers from the moment the orchestra struck up the first piece until the close.

Punch was served by the Bills, and those who did not care to dance found diversion lounging in the big clubrooms, enjoying the warm, happy atmosphere.

**Rev. and Mrs. Taylor Entertain.**  
Rev. and Mrs. Tom Taylor entertained a few friends at a delightful Thanksgiving luncheon yesterday afternoon. The luncheon consisted of five courses, and the menu called for edible and relishes appropriate of Thanksgiving.

Plates were laid for the following: Mr. and Mrs. Willie Messer of Durant; Mr. and Mrs. Roy Messer of Durant; Mr. and Mrs. Walter Domerow of Ada; and the host and hostess.

The guests voted that Mr. and Mrs. Taylor are indeed well versed in the art of entertaining. When the hour for departing came, each expressed a wish for the speedy return of Thanksgiving.

## BROWN COAT WITH BEAVER TRIMMING

The semi-wrap or belted coat is more conservative in style than the popular wrap type of coat, and therefore it will be more desirable for those women who must take more than one season out of their wraps. This style, which is a happy compromise between the extreme wrap and the coat, is made of a pretty shade of brown duvetyn trimmed with beaver collar and deep cuffs.

**R. R. Sharp of Wetumka** spent Thanksgiving with relatives in Ada.

**Dr. Byron W. King** arrived in this city today and will deliver an address to the teachers of this district during their meeting here this week.

## You'll kick yourself five times a week

The Overcoat you have sent home this week is going to be your earthly home for the next five months.

Now, if you buy a poor coat for \$10 less than a good coat would cost you are going to kick yourself a hundred times—which will be on an average of twenty times a month or five times a week.

Your friends are going to buy kickless coats—our MICHAELS STERN Coats—and they will be patting themselves on the back while you are kicking yourself for not having enough foresight in the first place.

This is an appeal to you—to buy the kind of an Overcoat that you won't have to kick yourself in to keep warm.

\$40, \$50 and \$60 Overcoats are now

\$32, \$40 and \$48

Warm and wealthy in everything else but the price.

STATE HAS LAGGED  
IN HEALTH SEAL SALE

OKLAHOMA CITY, Nov. 24.—(Special)—Although Oklahoma is rallying stronger and stronger in the fight against tuberculosis, it still lags behind all except 16 of the states of the union in the amount of support given the Tuberculosis Christmas Seal sale. This sale will be held in Oklahoma from December 1 to 15. Proceeds are used to support work of the Oklahoma Public Health association, such as maintaining tuberculosis dispensaries, free public health nurses, etc. Half the money raised in each county from these seals, at one cent each, is spent in the county.

Oklahoma last year bought 2.8 Tuberculosis seals per capita. This compares with 11.9 per capita for New Hampshire and 11.8 for Delaware, New York bought 7.9 per capita, Colorado 7.7, Arizona 6.9, Rhode Island, 6.6, etc. Kansas, to the north of Oklahoma, bought 3.3 per capita, far in excess of Oklahoma's purchases. Missouri's purchases were 3.1, New Mexico's 3.7. Only Arkansas, with 2.7 and Texas with 2.1 among the states adjoining Oklahoma has seal sale purchases lower than this state's.

The Oklahoma Public Health association's ambition this year is to raise the state's purchases to 10 stamps per capita. If every person in the state buys ten cents worth of these stamps for use on Christmas mail and packages, Oklahoma will probably rank third or fourth in the United States in the per capita purchase of seals.

Everyday Miracles

Banking.  
Do you ever stop to think that when you enter a bank you are treading upon holy ground, that is as much a temple to the living God as the stateliest church or cathedral?

Or, if the bank is not God's temple, then it fails to fulfill its purpose; for it represents and expresses one of God's greatest functions.

As Intrinsic Love, it is God's constant delight to supply the needs of his children, the sons and daughters of men. "He giveth to all life and breath and all things." "It is He that giveth thee power to get wealth."

And the banks, as our sources and distributors of supply, represent this Divine activity.

So the man who hoards or secretes his money instead of putting it into circulation through the banks and thus benefitting both himself and his fellow men is really trying to put a check-strap on the purposes of God.

In his timidity of selfishness, he doesn't realize that he can only help himself by helping others; and in the end his shortsightedness usually strikes back at him. Some one starts a fire in the old stove where he has so carefully stuffed his money, or a clever thief spies out his guarded secret.

You remember the story in the bible of the fellow who got one talent, and instead of putting it to profit use, went off and buried it in the ground. As a reward he was chucked out of the gate, and his money given to an associate who during the same time had by bargaining and investment turned five talents into ten.

God gave us banks for our protection and convenience and profit. As a matter of fact, his bank should be the best friend that any man has.

They have their rules or course to guard against dishonesty and greed. So did God when he supplied his manna to the Children of Is-

rael. To the square, fair-minded man there was an abundant portion every day; but the crook who tried to hog more than his share found it turned sour upon his hands, and the drone who wouldn't get up before the sun was high had to go without.

As a shining target for every thief and crackman and forger, for the swindler and checkkiter and shady promoter for the shiftless, and the careless and the visionary, it is a wonder that the banks have any faith left in human nature at all.

And yet, by a singular paradox, human nature—if you choose to call that touch of God's squareness and fair dealing which abides at bottom in every man—is a bank's chief asset. As the elder J. P. Morgan once said, and he knew banking if any man ever did, the bank's strongest reliance must all ways be on the moral risk.

Banks are supposed to be hard, rigid and exacting; but the man who takes God into his dealings with them can be pretty sure of bringing home the bacon.

The way to do business with a bank is exactly the same as if you were doing business with God. You would not go to Him with a lie on your lips and trickery in your heart, and expect any return.

You would cleanse your mind of and suggestion of fraud or sharp practice. You would question your purpose to see that it was just right and honorable. You would make sure that you were not kidding yourself either as to your need of your honesty of intention regarding it. Then, satisfied on these points, you would go to him with absolute confidence that your requirements would be met. And you know they would be. Otherwise, God is not God.

Those keen-eyed, old boys that sit behind the marble counters and the shining grill-work in the banks are pretty shrewd at reading human nature. They can decide very quick whether or not a man is on the level; and when they believe in him they will back him to the limit of their powers. It is being done by banks every day.

That's one of the secrets of successful banking.

Because of her rosy cheeks and satin skin a woman attracts the admiration of all men. When the

young woman peers in her glass, she may see pimples and blotches and she immediately goes

to the drug store for paint, powders and beauty creams, when she should go there for a blood medicine and stomach alterative known as "Golden Medical Discovery."

This vegetable tonic and blood alterative clears the skin, beautifies it, increases the blood supply and the circulation, while pimples, boils and eruptions vanish quickly. Ask your nearest druggist for Dr. Pierce's Golden Medical Discovery in tablet or liquid form or send 10c for trial package of tablets to Dr. Pierce's Invalids' Hotel in Buffalo, N. Y.

For all run-down, nervous, anaemic conditions, weak women, overworked men, feeble old people and delicate children, there is no remedy like Vinol.

IT'S not a bit of trouble to have plenty of good things to eat on hand all the time, when you use Calumet Baking Powder.

It never allows baking trouble. You don't "dread" to bake. There is nothing to worry about—and that really is the hardest part of it.

Mix up a batch of biscuits—or the finest kind of cake—it's all the same. There is never but one result—the sweetest and most palatable of foods.

There is not as much worry over baking costs either. Because Calumet costs less—when you buy it—the price is moderate.

It costs you less when you use it—because you don't use as much of it—it has more than the ordinary leavening strength.

The most critical of baking powder judges gave it highest awards, World's Pure Food Exposition, Chicago,—Paris Exposition, Paris, France.

The largest selling brand in the world.

A pound can of Calumet contains full 16 oz. Some baking powders come in 12 oz. cans instead of 16 oz. cans. Be sure you get a pound when you want it.

Calumet Doughnut Recipe  
4 cups of pastry flour, 3 level teaspoons Calumet Baking Powder, 1/2 teaspoon of salt, 1 cup of sugar, 2 eggs, beaten together, 2 tablespoons of melted butter, 1 cup of milk. Then mix in the regular way.

PLANT DISEASES COST  
FARMERS HEAVY TOLL

WASHINGTON, Nov. 26.—Millions of bushels of grain, fruit and vegetables and a big tonnage were lost to American farmers last year by plant diseases according to figures compiled by the plant disease survey of the department of agriculture. The survey said that the statistics indicate that lack of prompt application of known measures of control was largely the cause of the loss.

The plant disease survey esti-

mated the losses at 112,000,000 bushels of wheat, 50,000,000 bushels of oats, 80,000,000 bushels of corn, 50,000,000 bushels of potatoes, 40,000,000 bushels of sweet potatoes, 185,000 tons of tomatoes, 550,000 bales of cotton, 5,000,000

bushels of peaches and 16,000,000 bushels of apples.

## MOTOR'S PURR IS SWEET MUSIC FOR WOMEN

FARGO, N. D.—The purr of a smoothly running motor is sweeter music to the ears of some women than the rattle of dishes, according to Mrs. Louise Campbell of the state agricultural college home demonstration department.

The women of one North Dakota community recently refused to become interested in "how to convert a ham bone into a delicious entrée" and other questions commonly supposed to intrigue the feminine mind, Mrs. Campbell says.

"Well, what do you wish to do?" asked the home demonstration agent in charge of the meeting.

"We want to learn how to fix an automobile when it will not run," was the answer.

So a man was obtained as instructor and repairing blow outs was taken up as a preliminary to studying the more difficult problems presented by the engine.

If your digestion is bad, your bowels constipated and you don't eat or sleep well, you need Prickly Ash Bitters, the remedy that men use for cleansing the system. It purifies and invigorates the vital organs, restores appetite, energy and cheerful spirits. Price \$1.50 per bottle. Gwin & Mays Drug company. (adv)

Woman's Faith Helps Husband

"I owe my good health to my wife who had faith in a newspaper ad she saw of Mayr's Wonderful Remedy. I was down so badly with stomach and liver trouble after 15 years of suffering and trying every known remedy that I had no faith in anything. This medicine has certainly been a 'God-send' to me." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. (Adv)

## NO BIG KITCHENS IN HOMES THAT ARE BUILT TODAY

CHICAGO—The day of the big kitchen in newly built homes has passed, due both to economy in building and to economy in housework, according to H. Roche, an architect of this city. Such innovations in house building as have appeared in consequence of high building costs have to do chiefly with the kitchen, he said.

"In some cases the size of the kitchen has been reduced and a small bay has been built for a dining room," Mr. Roche said. "In others a bay has been built off the living room to serve as a dining room."

"Feeling among women has been growing that the big kitchen was not economical in service. Where there are servants the tendency is toward a small kitchen with the extra space made into a sort of servants' hall or small room for the servants' use."
